## Equitable Investments ACS Overview

Equitable Investments ACS (the "Scheme") is an Authorised Contractual Scheme which is constituted as an umbrella Co-Ownership Scheme as defined under section 235A(2) of FSMA and for the purposes of the EU Regulation, the UCITS Directive, the UCITS Regulation, the Collective Investment in Transferable Securities (Contractual Scheme) Regulations 2013 (SI 2013/1388) and the FCA Handbook (including the COLL Sourcebook) made under FSMA, and any other applicable rules made under FSMA from time to time in force. Equitable Investments Ltd (a Private Limited Company (the "Company")) is the appointed ACS Manager (the "Manager") and HSBC Bank Plc, is the appointed Depositary (the "Depositary") to whom the Scheme Property is entrusted for safekeeping.

The Scheme has segregated liability between sub-funds of the Scheme ("Funds"). The Scheme was authorised by the FCA on 16 December 2015. The Scheme is organised as an umbrella Co-Ownership Scheme and may be comprised of separate sub-funds and segregated portfolio of assets. Accordingly, the sub-funds assets are allocated exclusively to that sub-fund and shall not be used or made available to discharge (directly or indirectly) the liabilities of, or claims against, any other person or body, including any other sub-funds that may be established under the Scheme on a later date and shall not be available for any other purpose. Except where otherwise stated or the context requires, capitalised terms have the meaning given to them in the Prospectus of the Scheme dated 19 August 2019.

### Investment objective and policy

#### **Equitable Resilience Fund**

The Scheme currently has one sub-fund, Equitable Resilience Fund (the "Sub-Fund"), a UCITS Scheme under the COLL Sourcebook. The Sub-Fund was authorised by the FCA on 16 December 2015.

The Sub-Fund aims to generate capital growth by investing in today's most innovative, high growth companies. The investment process combines a quantitative and qualitative approach to build a diversified portfolio of between 35 to 40 high quality, large cap developed world companies. The investment process is designed to select the best stocks for the prevailing economic environment. It is explicitly engineered to adapt to changing economic circumstances, seeking to identify leading companies in rapidly growing industries.

The Sub-Fund is actively managed with the fund manager utilising their expertise to select investments to achieve the fund's objective. The Sub-Fund does not have geographic or sector constraints and is benchmark agnostic. The Sub-Fund is typically close to fully invested in equities and does not rely on leverage or derivatives to generate returns.

Investors may assess the success of this strategy by considering, in combination, the average annual return of the Sub-Fund and the average annual maximum loss of the Sub-Fund where the annual maximum loss is defined as the largest percentage loss which an investor could have incurred by investing into and subsequently redeeming from the Sub-Fund within a given year.

In normal market conditions, the Sub-Fund will be close to fully invested in equity securities (e.g. shares). Allocations to bonds and cash may be made periodically for the purpose of capital preservation. Use may be made of cash holdings, hedging and other investment techniques for the purposes of efficient portfolio management as permitted by the COLL Sourcebook. The Sub-Fund will not utilise borrowing or leverage in order to achieve the investment objective. Short term borrowing may be used for the purposes of efficient portfolio management. The Sub-Fund may utilise derivatives for efficient portfolio construction and for hedging purposes.

## Statement of the Manager's responsibilities in relation to the financial statements of the Scheme

The FCA's Collective Investment Schemes sourcebook ("the Regulations") require the Manager to prepare financial statements for each annual accounting year, which give a true and fair view of the financial position of the Scheme as at the end of the year and of the net revenue/expense and the net capital gains or losses on the property of the Scheme for the year then ended. In preparing the financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently.
- make judgements and estimates that are reasonable and prudent.
- comply with the disclosure requirements of the Statement of Recommended Practice 'Financial Statements of Authorised Funds', issued by the IMA in May 2014 and the Co-Ownership Deed.
- follow United Kingdom Generally Accepted Accounting Practice and applicable accounting standards.
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Scheme will continue in operation.
- keep proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements.

The Manager is responsible for the management of the Scheme in accordance with the Co-ownership Deed, the Prospectus and the Regulations and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## ACS Manager's Report to the Unitholders

As the sole Manager, Equitile Investments Ltd, presents its report and the audited financial statements of the Scheme for the year from 01 January 2019 to 31 December 2019. The Scheme is a UCITS Scheme which complies with the Financial Conduct Authority's Collective Investment Schemes sourcebook. The unitholders are not liable for the debts of the Scheme. The Investment Objectives and Policies of each sub-fund of the Scheme are covered in the section for each sub-fund. The names and addresses of the Manager, the Depositary and the Auditors are detailed on page 2.

The object of the Scheme (which may be made up of a number of sub-funds) is to invest the Scheme Property through the sub-funds as set out in the Prospectus and the object of each sub-fund is for the ACS Manager on behalf of the Unitholders, as co-owners of the relevant sub-fund's property, to invest that property in transferable securities, money market instruments, derivatives and forward transactions, deposits, cash, near cash, and units in collective investment schemes in accordance with the Regulations applicable to the Scheme and each sub-fund with the aim of spreading investment risk and giving to the Unitholders the benefits of the results of the management of that property.

### ACS Manager's Statement

In accordance with the requirements of the COLL as issued and amended by the Financial Conduct Authority, the report and financial statements are approved on behalf of the Directors of Equitile Investments Ltd, the ACS Manager.

Andrew McNally  
CEO

Nigel Hellewell  
COO

30 April 2020

## Statement and Report of the Depositary

### Statement of the Depositary's responsibilities in respect of the Scheme and Report of the Depositary to the Unitholders of the Equitile Investments ACS ("the Scheme") for the year ended 31st December 2019

The Depositary must ensure that the Scheme is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, the Collective Investment in Transferable Securities (Contractual Scheme) Regulations 2013 (together "the Regulations") and the Contractual Scheme Deed and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in context of its role act honestly, fairly, professionally, independently and in the interests of the Scheme and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Scheme in accordance with the Regulations.

The Depositary must ensure that:

- the Scheme's cash flows are properly monitored and that cash of the Scheme is booked into the cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Scheme are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Scheme's assets is remitted to the Scheme within the usual time limits;
- the Scheme's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

The Depositary also has a duty to take reasonable care to ensure that the Scheme is managed in accordance with the Regulations and Scheme documents in relation to the investment and borrowing powers applicable to the Scheme.

Having carried out such procedures as we consider necessary to discharge our responsibilities as Depositary of the Scheme, it is our opinion, based on the information available to us and the explanations provided, that in all material respects, the AFM:

- i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Scheme's units and application of the Scheme's income in accordance with the Regulations and the Scheme documents of the Scheme; and
- ii) has observed the investment and borrowing powers and restrictions applicable to the Scheme in accordance with the Regulations and Scheme documents of the Scheme.

HSBC Bank plc

This report is given on the basis that no breaches are subsequently advised to us before the distribution date. We therefore reserve the right to amend the report in the light of such circumstances.

Yours sincerely,

Lorna Murphy

Head of Trustee & Fiduciary Operations Edinburgh

30 April 2020

## Independent Auditor's Report to the Unitholders of Equitile Investments ACS

### Report on the audit of the financial statements

#### Opinion

In our opinion, Equitile Investment ACS's financial statements:

- give a true and fair view of the financial position of the Scheme and its sub-fund as at 31 December 2019 and of the net revenue and the net capital gains on the scheme property and its sub-fund for the year then ended; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law), the Statement of Recommended Practice for UK Authorised Funds, the Collective Investment Schemes sourcebook and the ACS Deed.

Equitile Investment ACS (the "Scheme") is an Authorised Contractual Scheme with a single sub-fund. The financial statements of the Scheme comprise the financial statements of its sub-fund. We have audited the financial statements, included within the Annual Report and Audited Financial Statements (the "Annual Report"), which comprise: the balance sheet as at 31 December 2019; the statement of total return, and the statement of change in net assets attributable to unitholders for the year then ended; the distribution tables and the notes to the financial statements, which include a description of the significant accounting policies.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We remained independent of the Scheme in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

#### Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- the Authorised Contractual Scheme Manager's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Authorised Contractual Scheme Manager has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Scheme's or its sub-fund's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Scheme's or the sub-fund's ability to continue as a going concern.

#### Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Authorised Contractual Scheme Manager is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

#### Authorised Contractual Scheme Manager's Report

In our opinion, the information given in the Authorised Contractual Scheme Manager's Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

## Independent Auditor's Report to the Unitholders of Equitile Investments ACS

### Responsibilities for the financial statements and the audit

#### *Responsibilities of the Authorised Contractual Scheme Manager for the financial statements*

As explained more fully in the Manager's Responsibilities Statement set out on page 4, the Authorised Contractual Scheme Manager is responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Authorised Contractual Scheme Manager is also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Authorised Contractual Scheme Manager is responsible for assessing the Scheme's and its sub-fund's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Authorised Contractual Scheme Manager either intends to wind up or terminate the Scheme or its sub-fund, or has no realistic alternative but to do so.

#### *Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditors' report.

#### *Use of this report*

This report, including the opinions, has been prepared for and only for the Scheme's shareholders as a body in accordance with paragraph 4.5.12 of the Collective Investment Schemes sourcebook and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

---

### Other required reporting

---

#### Opinion on matter required by the Collective Investment Schemes sourcebook

In our opinion, we have obtained all the information and explanations we consider necessary for the purposes of the audit.

---

#### Collective Investment Schemes sourcebook exception reporting

Under the Collective Investment Schemes sourcebook we are also required to report to you if, in our opinion:

- proper accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records.

We have no exceptions to report arising from this responsibility.

## Sub-Fund Review

As at 31 December 2019, the Scheme had 1 active sub-fund:

Fund – Equitile Resilience Fund  
Launch Date – 29 February 2016  
Base currency - GBP

### Investment Review

Please note this investment review is for the financial year from 01 January 2019 to 31 December 2019.

### Performance and Market Review

We are pleased to report the investment strategy of the fund is continuing to perform well. From launch, at the end of February 2016 to the end of 2019 the USD share class has produced an annual compound return of approximately 14.8% per annum, after all fees.

The returns generated in calendar year 2019 have been exceptionally strong – the USD share class rose in value by over 37% - however that figure should be viewed in the context of what was an extraordinarily sharp decline in equity markets in the last three months of 2018. For this reason, we believe it is prudent for investors to consider the returns of calendar years 2018 and 2019 together. Over this two-year period, the USD share class generated total investment returns of approximately 29% or 13.5% per annum, broadly in line with the since inception figure.

During whole of 2019 the fund has remained predominantly invested in U.S. listed equities with an average allocation of 75% and within that allocation the fund has continued to invest heavily in market leading technology companies which are currently enjoying especially strong growth. By industry, Semiconductor, Software and Payment systems have been the most important sectors for the fund this year. Outside of the U.S. the fund's European holdings have been dominated by investments in the luxury goods and software industries. And, for the first time, the fund has also made investments in Japan and Taiwan.

In response to the heightened market volatility around the start of 2019 a greater emphasis was placed on the available market liquidity of the fund's investments. As a result, during the year, when making investment changes, the fund has tended to focus on larger more liquid companies which has taken the average market capitalisation of the fund's investments above USD 200bln. As we move into 2020, we intend retaining this focus on high liquidity.

### Outlook

At time of writing, much of the developed world's economies remain in the COVID-19 social distancing economic lockdown. This has triggered a coordinated shock to global economies which is unprecedented in history. The future consequences of this crisis cannot yet be fully known. That said the degree of fiscal and monetary stimulus deployed to counteract the economic impact of the COVID-19 crisis is also unprecedented and looks likely to be sustained long after the pandemic itself has passed. For this reason, while the COVID-19 downturn has been extreme in its speed and depth we do not anticipate it will be long lived. We anticipate a robust economic and market recovery during the second half of 2020.

Broadly speaking we are happy with the performance of the investment portfolio through the COVID-19 lockdown. The fund's focus on highly liquid, large-cap stocks with strong balance sheets has undoubtedly helped it outperform the majority of stock market indices. In addition, the fund's investments in technology companies operating in the software and cloud computing space have also helped, due to the migration to home working.

The pace of technological innovation remains robust and will perhaps even be accelerated by the COVID-19 crisis – the 5G wireless network rollout now looks like a more urgent than before. The fund is positioned to benefit from this trend, which we anticipate lasting for several years. In addition, the monetary and fiscal policy environment has become, significantly more stimulatory. The U.S. Federal reserve's brief flirtation with monetary tightening at the end of 2018 has now been replaced with a commitment to an extended period of ultra-loose monetary policy likely lasting years into the future. However, in our view, the most interesting policy development of the COVID-19 crisis is a notable move toward greater fiscal stimulus. In this regard the U.K. and U.S. are arguably leading the move toward structurally high deficit spending.

## Sub-Fund Review

High fiscal deficits – periods where governments spend substantially more than they recover through taxation – tend to be supportive of robust corporate profits and, eventually, higher inflation. Both of these, in our view, are supportive of equity prices over the near and longer term. For this reason, we believe the macro economic environment has become more advantageous for equity markets and more disadvantageous for bond markets as a result of the COVID-19 crisis. We are therefore anticipating a relatively rapid market recovery from the COVID-19 downturn and thereafter a continuation of strong investment returns for the foreseeable future.

### Synthetic Risk and Reward Indicator (SRRI)

Lower risk  
Typically lower returns

Higher risk  
Typically higher returns

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Sub-Fund is classified category 5 because the investment policy of the fund means it will typically be predominantly invested in the equity markets and will therefore be exposed to the relatively high volatility of the equity market. Please note that even the lowest ranking does not mean risk-free.

The Risk and Reward indicator demonstrates where the Sub-Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Sub-Fund.

### Securities Financing Transaction Regulation Disclosure

The Sub-Fund does not engage in any securities financing transactions and / or any total return swaps.

## Comparative Tables

The 'Return after operating charges' disclosed in the Comparative Tables is calculated as a return after operating charges per unit divided by the opening net asset value per unit.

Portfolio transaction costs are incurred when investments are bought or sold by the Sub-Fund in order to achieve the investment objective. Direct transaction costs include broker commission and taxes. Broker commission includes the fee to a broker to execute the trades. Equitile does not buy external research.

## Financial Statements of the Sub-Fund

### Statement of Total Return

This statement of total return is prepared in accordance with IMA SORP 2014. The financial statements are prepared in the base currency (Sterling) of the Sub-Fund.

	Note	£'000	Year ended 31.12.19 £'000	Year ended 31.12.18 £'000
Income				
Net capital gains/(losses)	1		37,928	(12,457)
Revenue	2	1,578		1,449
Expenses	3	(1,152)		(1,263)
Interest payable and similar charges		(7)		(10)
Net revenue before taxation		419		176
Taxation	4	(194)		(158)
Net revenue after taxation			225	18
Total return/(deficit) before distributions			38,153	(12,439)
Distributions	5		(225)	(18)
Change in net assets attributable to unitholders from investment activities			37,928	(12,457)

### Statement of Change in Net Assets Attributable to Unitholders

The statement of change in net assets attributable to unitholders reconciles the opening and closing net assets attributable to unitholders.

	£'000	Year ended 31.12.19 £'000	Year ended 31.12.18 £'000
Opening net assets attributable to unitholders		115,281	99,507
Movement due to issue and cancellation of units:			
Amounts receivable on issue of units	44,446		61,551
Amounts payable on cancellation of units	(36,066)		(33,423)
		8,380	28,128
Dilution adjustment		22	53
Change in net assets attributable to unitholders from investment activities (see above)		37,928	(12,457)
Retained distribution on accumulation units		240	50
Closing net assets attributable to unitholders		161,851	115,281

## Balance Sheet

	Note	As at 31.12.19 £'000	As at 31.12.18 £'000
<b>Assets:</b>			
Fixed Assets			
Investments		159,740	114,127
<b>Current assets:</b>			
Debtors	6	158	932
Cash and bank balances	7	3,204	1,876
<b>Total assets</b>		<b>163,102</b>	<b>116,935</b>
<b>Liabilities:</b>			
Investment liabilities		(308)	(217)
<b>Creditors:</b>			
Other creditors	8	(943)	(1,437)
<b>Total liabilities</b>		<b>(1,251)</b>	<b>(1,654)</b>
<b>Net assets attributable to unitholders</b>		<b>161,851</b>	<b>115,281</b>

## Notes to the Financial Statements

### 1. Net capital gains / (losses)

	Year ended 31.12.19 £'000	Year ended 31.12.18 £'000
Non-derivative securities gains/(losses)	36,367	(4,888)
Forward currency contracts gains/(losses)	1,656	(7,362)
Currency losses	(64)	(63)
Transaction charges*	21	(37)
Portfolio Hedging Fee**	(52)	(107)
<b>Net capital gains/(losses)</b>	<b>37,928</b>	<b>(12,457)</b>

\* Transaction charges were over accrued in the prior year resulting in a current year negative expense.

\*\* From 12 July 2019 Portfolio Hedging Fees are no longer paid from the Sub-Fund.

### 2. Revenue

	Year ended 31.12.19 £'000	Year ended 31.12.18 £'000
UK dividends	8	113
Overseas dividends	1,563	1,330
Deposit interest	3	2
Bank interest	4	4
<b>Total revenue</b>	<b>1,578</b>	<b>1,449</b>

### 3. Expenses

	Year ended 31.12.19 £'000	Year ended 31.12.18 £'000
Payable to the Manager or associate		
Management fee	980	925
Payable to the Trustee or associate		
Trustee fee	68	79
Fund accounting fee***	103	124
Safe custody fee	9	3
Share class hedging fee	64	5
Transfer agency & registrars fee	6	6
Other expenses	(91)	91
<b>Total payable to the Trustee or associate</b>	<b>159</b>	<b>308</b>
Other expenses		
Audit fee	13	12
Professional fee	-	18
<b>Total other expenses</b>	<b>13</b>	<b>30</b>
<b>Total expenses</b>	<b>1,152</b>	<b>1,263</b>

\*\*\* Middle office fees are now included within the Fund accounting fee. The prior year Fund accounting fee has been reanalysed to reflect this change.

## Notes to the Financial Statements

### 4. Taxation

	Year ended 31.12.19 £'000	Year ended 31.12.18 £'000
Analysis of charge in the year		
Overseas tax	194	158
<b>Total taxation</b>	<b>194</b>	<b>158</b>

As the Scheme is an umbrella co-ownership ACS neither the Scheme nor its Sub-Funds are subject to UK tax on income or capital profits.

### 5. Distributions

	Year ended 31.12.19 £'000	Year ended 31.12.18 £'000
Final distribution	240	50
Add/(less): Revenue deducted on cancellation of units	11	(8)
Less: Revenue received on issue of units	(26)	(24)
<b>Total distributions</b>	<b>225</b>	<b>18</b>

The differences between the net revenue after taxation and the distributions for the year are as follows:

Net revenue after taxation for the year	225	18
<b>Total distributions</b>	<b>225</b>	<b>18</b>

### 6. Debtors

	As at 31.12.19 £'000	As at 31.12.18 £'000
Accrued dividends	127	111
Accrued recoverable tax	31	26
Sales awaiting settlement	-	795
<b>Total debtors</b>	<b>158</b>	<b>932</b>

### 7. Cash and bank balances

	As at 31.12.19 £'000	As at 31.12.18 £'000
Cash and bank balances	634	766
Amounts held at derivatives clearing houses and brokers	2,570	1,110
<b>Total cash and bank balances</b>	<b>3,204</b>	<b>1,876</b>

## Notes to the Financial Statements

### 8. Other creditors

	As at 31.12.19 £'000	As at 31.12.18 £'000
Amounts payable on cancellation of units	-	1,145
Purchases awaiting settlement	722	-
Accrued expenses	221	292
<b>Total other creditors</b>	<b>943</b>	<b>1,437</b>

### 9. Reconciliation of units

	Class A1 Resilience GBP Acc	Class X3 Resilience USD Acc
Opening units in issue	915,474	56,369
Unit movements in year:		
Units issued	218,917	107,130
Units cancelled	(242,604)	(14,967)
<b>Closing units at 31.12.19</b>	<b>891,787</b>	<b>148,532</b>

### 10. Contingent assets, liabilities and outstanding commitments

There were no contingent assets, liabilities or commitments at the year end (2018 - £Nil).

### 11. Related parties

The Fund's Manager, Equitile Investments Ltd is a related party to the Sub-Fund as defined by Financial Reporting Standard 102.33 'Related Party Disclosures'.

Management fees paid to Equitile Investments Ltd are shown in note 3 and details of units issued and cancelled by the Manager are shown in the statement of change in net assets attributable to unitholders. The balance due to the Manager at the year end in respect of Management fees was £96,636 (2018 - £72,442). Any balance due from the Manager in respect of issues is shown in note 6. Any balance due to the Manager in respect of cancellations is shown in note 8.

The Equitile Resilience Feeder Fund as a feeder vehicle for the Fund holds units comprising 88.90% (2018 - 95.90%) of the total net assets of the Sub-Fund.

## Notes to the Financial Statements

### 12. Financial instruments

The policies applied in the management of risk disclosures are set out on pages 28 to 29.

#### Fair value of financial assets and financial liabilities

The fair values of the Sub-Fund's assets and liabilities are represented by the values shown in the balance sheet on page 17. There were no instances of invoking the Fair Value Pricing for the year (2018: nil).

#### Currency exposures

A significant proportion of the Sub-Fund's assets are denominated in currencies other than Sterling, with the effect that the balance sheet and total return can be affected by currency movements. For further details, refer to 'Currency Risk' section titled 'Risk Management Frameworks' (on pages 28 to 29). I

#### Net currency asset exposure as at 31.12.19

Currency	Net other assets	Investments	Total
	£'000 31.12.19	£'000 31.12.19	£'000 31.12.19
Australian Dollar	-	467	467
Canadian Dollar	-	396	396
Euro	14	2,456	2,470
Japanese Yen	-	394	394
Swiss Franc	17	-	17
US Dollar	(553)	14,100	13,547
Sterling	2,941	141,619	144,560
<b>Total</b>	<b>2,419</b>	<b>159,432</b>	<b>161,851</b>

A 5% change in the FX rate will move the Net Asset Value of the fund by £864,600. It should be noted that in addition, the Sub-Fund employs as Asset Hedging strategy that has a performance criteria of 95-105% - this strategy is designed to materially reduce the impact of currency movements on the NAV of the Sub-Fund.

In March 2020, the Manager took the decision to temporarily suspend the currency hedging program. Details of the decision can be found in the Investor Notice "Covid-19 FX Hedging Policy" at [www.equitile.com](http://www.equitile.com).

#### Net currency asset exposure as at 31.12.18

Currency	Net other assets	Investments	Total
	£'000 31.12.18	£'000 31.12.18	£'000 31.12.18
Australian Dollar	-	103	103

There were no transaction costs on derivatives during the year.

Commissions and taxes as percentage of average net asset value:

Commissions	0.10%
Taxes and Expenses	0.06%

At the balance sheet date the portfolio dealing spread was 0.30%, being the difference between the respective bid and offer prices for the Sub-Fund's investments.

## Notes to the Financial Statements

### 14. Portfolio fair value hierarchy

The fair values of the Sub-Fund's assets and liabilities are represented by the values shown in the balance sheet. There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair values.

The fair value of investments has been determined using the following hierarchy:

Category 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Category 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.

Category 3: Inputs are unobservable (i.e for which market data is unavailable) for the asset or liability.

An analysis of the portfolio's investment assets and liabilities in accordance with the fair value hierarchy is noted below:  
As at 31.12.19

	1	2	3	Total

## Notes to the Financial Statements

### 15. Post balance sheet events

There has been significant market turmoil caused by the governments measures to combat Covid-19. Due to these events there has been extreme market volatility. The Sub-Fund has been impacted as a result.

The net asset value in pence per share at the balance sheet date and the latest practicable date prior to the publication of the report has been shown in the table below. The % increase/(decrease) is a reflection of market fluctuations during this period. It is likely markets will continue to be much more volatile than normal over the next few months until the

	Net Asset Value per unit 31 December 2019 *	Net Asset Value per unit 29 April 2020 *	Decrease %
Class A1 Resilience GBP Acc	161.67	148.3	9.02
Class X3 Resilience USD Acc	159.36	153.63	3.73

\*Published price

In March 2020 the decision was taken to temporarily suspend the currency hedging program, Details of suspension were provided to investors in a communication circulated on 23 April 2020.

## Distribution Tables

	Distribution payable 2019	Distribution payable 2019
Dividend distributions on accumulation units	p	US¢
Class A1 Resilience GBP Acc	24.006518	
Class X3 Resilience USD Acc		22.675787

	Distribution paid 2018	Distribution paid 2018
Dividend distributions on accumulation units	p	US¢
Class A1 Resilience GBP Acc	6.010289	
Class X3 Resilience USD Acc		0.000000

The Sub-Fund is tax transparent for income purposes meaning that UK tax-paying shareholders are subject to tax on their share of income, net of allowable expenses, as it arises to the Sub-Fund and not on distributions of income after deduction of expenses.

When a unit is purchased during the distribution year, part of the purchase price of the unit reflects the relevant unit of income and expenses accrued by the Sub-Fund, and this will be disclosed on the contract note. This purchased income and expense, a capital sum, should be deducted from the aggregate accrued income or expense as applicable.

The subscription price disclosed on the contract note reflects the acquisition cost, which should be adjusted by the capital sum referred to above.

It is the responsibility of the unitholder to maintain a record of the relevant amount(s) of income equalisation and to make the appropriate adjustment when completing their tax calculations.

## Summary of Significant Accounting Policies

### Basis of Preparation

The Financial Statements have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss. The Fund has adopted FRS 102 and the 2014 SORP.

### Base Currency

The base currency of the Sub-Fund is Sterling.

### Revenue Recognition

Revenue from collective investment Schemes, quoted equity and non-equity shares is recognised net of attributable tax credits when the security is quoted ex-dividend. Overseas revenue received after the deduction of withholding tax is shown gross of taxation, with the taxation consequences shown within the taxation charge.

Equalisation received from distributions or accumulations on units or shares in collective investment Schemes is treated as capital and deducted from the cost of the investments. Bank interest and other revenue are recognised on an accruals basis.

### Stock Dividends

The ordinary element of stocks received in lieu of cash dividends is recognised as revenue of the Sub-Fund but does not form part of the distribution. Any enhancement above the cash dividend is treated as capital.

### Special Dividends

Special dividends are recognised as either revenue or capital depending upon the nature and circumstances of the dividend.

### Expenses

For accounting purposes, all expenses (other than those relating to the purchase and sale of investments) are charged against revenue for the year on an accruals basis.

### Distributions

Amounts distributable are calculated after excluding expenses borne by capital as agreed by the Manager and Depositary. Scrip dividends will not be distributed.

### Valuations

All investments are valued at their fair value at 3pm on 31 December 2019, being the last business day of the financial year. The fair value of units is bid-price. The fair value of all single priced collective investment Schemes is their single price. Equities listed on recognised stock exchanges are valued by reference to the single or the average of the quoted buying and selling price of the relevant equity. The details of determination of net asset value for the Sub-Fund, including for equities, can be found in the Prospectus of the Sub-Fund at [www.equitile.com](http://www.equitile.com).

### Foreign Currencies

Assets and liabilities in currencies other than sterling are translated into sterling at the exchange rates prevailing at 3 pm on the last working day of the accounting year. Transactions in foreign currencies are translated at the exchange rate prevailing at the transaction date. Where forward positions in currencies are held, these are translated at the appropriate forward rate.

### Taxation

As the Scheme is an umbrella co-ownership ACS scheme, neither the Scheme nor its Sub-Fund are subject to the UK tax on income or capital gains. Withholding tax on overseas dividends is accounted for when the security is quoted ex dividend.

### Dilution Adjustment

Under certain circumstances the Manager may carry out a dilution adjustment, in accordance with the Financial Conduct Authority Regulations, on all subscriptions and redemptions of units, which is paid into the Sub-Fund and included in the Statement of Change in Net Assets Attributable to Unitholders. The adjustment is intended to cover certain dealing charges not included in the mid-market value of the Sub-Fund used in calculating the share price, which could have a diluting effect on the performance of the Sub-Fund.

### Efficient Portfolio Management

Where appropriate, certain permitted transactions such as derivatives or forward foreign currency transactions are used for efficient portfolio management. Where such transactions are used to protect revenue, and the circumstances support this, the revenue and expenses derived there from are included in 'Revenue' or 'Expenses' in the Statement of Total Return. Where such transactions are used to protect capital, and the circumstances support this, the gains and losses derived therefrom are included in 'Net capital gains' in the Statement of Total Return. Any positions on such transactions open at the year-end are reflected in the sub-fund's Portfolio of Investments at their fair value.

## Internal Control and Risk Management Frameworks

The Manager is responsible for establishing and maintaining adequate internal control and risk management systems in relation to the financial reporting process. The Manager has procedures in place to ensure all relevant accounting records of the Scheme are properly maintained and are readily available, including production of annual and semi-annual financial statements. The Manager has appointed HSBC Bank Plc (the "Administrator") as the Scheme's administrator consistent with the regulatory framework applicable to the Scheme. The Administrator has functional responsibility for the preparation of the Scheme's annual and semi-annual Financial Statements and the maintenance of its accounting records. On appointing the Administrator, the Board of Directors (the "Board") of the Manager noted that it is regulated by the UK Financial Conduct Authority (FCA) and, in the Board's opinion, has significant experience as an Administrator. The Board also noted the independence of the Administrator from the Manager. Subject to the supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Scheme's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The annual and semi-annual financial statements of the Scheme are required to be approved by the Board and filed with the FCA within the relevant respective time periods. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board evaluates and discusses significant accounting and reporting issues as the need arises. The Board reviews the financial statements prior to their approval. The annual financial statements are subject to independent audit by PricewaterhouseCoopers LLP (the "Auditors") and the Board receives and considers a report from the Auditors as to the audit process.

This report includes observations as to the extent to which (i) the annual financial statements provide a true and fair view (ii) adjustments were made to the accounting records maintained by the Administrator in order to provide financial statements giving a true and fair view and (iii) potential significant control weaknesses identified by the Auditors during the audit process. The report has been presented at the board meeting where the financial statements are presented to the Board for approval.

### Composition of the board of Directors

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently, the Board is composed of five Directors. The business of the Company is managed by the Directors. A Director may at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. The quorum necessary for the transaction of business at a meeting of the Directors is three. The Directors who held office at the date of these financial statements are:

George Cooper  
Andrew McNally  
Nigel Hellewell  
Thor Johan Furuholm  
Xiyang (Daniel) He

On 01 December 2019 the Company appointed two Non-executive Directors:

Gerald Ashley  
Jakob Iqbal

### Directors' interests and transactions

The Directors of the Management Company are also shareholders and directors of the parent company of Equitile Investments Ltd i.e., Equitile Ltd. There are no external contracts or arrangements of any significance in relation to the business of the Company in which the Directors had any interest any time during the financial year. No Director has any interest, direct or indirect, in any assets which have been or are proposed to be acquired or disposed of by, or issued to, the Company and no Director is materially interested in any contract or arrangement subsisting at the date hereof which is unusual in its nature and conditions or significant in relation to the business of the Company.

More information on Directors is available at <https://www.equitile.com/about/who-we-are>

### Transactions with connected persons

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Unitholders. The Directors are satisfied that there are arrangements are firmly in place.

### Significant events during the financial year

The Company appointed the two above named Non-executive Directors in compliance with the FCA's SMCR regime.

### Statement of Compliance

The financial statements have been prepared in compliance with UK Financial Reporting Standard 102 (FRS 102) and in accordance with the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Management Association in May 2014 and amended in June 2017 (2014 SORP).

## Internal Control and Risk Management Frameworks

### Risk Management Frameworks

The Manager has a documented risk management framework which details the processes and procedures used to identify, measure, manage and monitor appropriately all risks to which the funds are or may be exposed. The risks covered by the framework include market risk, liquidity risk, currency risk, credit/counterparty risk, operational risk and any other risks that might be material to the funds. The risks are both investment and operational and refer to the risk of loss arising from inadequate or failed processes, people or systems including attempted fraud. The risk framework details:

- the techniques, tools and arrangements including systems and processes used;
- the content and frequency of reports; and
- the allocation of responsibilities between key staff and departments.

The main risk management processes used by the Manager are fully integrated with the daily management of the Sub-Fund's portfolio and is used to measure and monitor market risk, credit / counterparty risk and liquidity risk. A separate process is maintained to track instances of operational risk and monitor amendments to controls made, seeking to ensure that any operational errors do not re-occur. The Manager has a formal structure of which includes an Operating Committee and a Risk management Committee who review the risk profile, including market, credit, operational and liquidity risks, of the Sub-Fund and publish and circulate this information internally on a regular basis. As part of its governance processes, the Manager reviews the performance of the risk management framework and its associated arrangements, processes, systems and techniques on at least an annual basis or after a risk event. The risk management framework is updated by the Manager following any significant change in the business or in risk exposures and at least annually. It is also reviewed by the Depositary.

### Market Risk

Market risk is the risk of loss arising from fluctuations in the market value of investments held by the funds attributable to changes in market variables, such as equity prices, foreign exchange rates, interest rates or the credit worthiness of an issuer. The risk management framework monitors the levels of market risk to which the funds are exposed in relation to the fund investment objective and policy.

### Leverage

The Sub-Fund does not use leverage as part of its investment strategy. The Sub-Fund uses the commitment method to calculate global exposure in preference to the VaR method and therefore, although VaR is calculated for internal purposes, it does not form part of the formal limits structure for the Sub-Fund and no details are provided here.

### Liquidity Risk

Liquidity risk exists when the sale of assets or exit of trading positions is impaired by such factors as decreased trading volume, increased price volatility, industry and government regulations, and overall position size and complexity. It may be impossible or costly for the Sub-Fund to liquidate positions rapidly particularly if there are other market participants seeking to dispose of similar assets at the same time or the relevant market is otherwise moving against a position or in the event of trading halts or daily price movement limits on the market or otherwise. Derivative transactions that are particularly large and bonds traded in the secondary market may be less liquid and it may be difficult to achieve fair value on transactions. Closing positions held in the secondary markets prematurely, for instance, to meet client redemption requests, can result in increased transaction costs which will be reflected in the investment returns.

Liquidity risk is the possibility that the fund will not be able to sell its assets without incurring losses within the timeframe required to meet investor redemptions. The asset liquidity profile of the fund is monitored on a regular basis and compared to both historical investor redemption patterns and potential redemption scenarios, with the aim of ensuring that the fund will be able to meet any actual redemptions in a timely manner. The liquidity risk management process includes an assessment of the market turnover, percentage of an issue held by the fund, credit rating of the issuer and/or the buy-sell spread of the market in the securities held where the information is available and is applicable.

Liquidity profile stress tests under both normal and exceptional conditions are conducted on a regular basis. If market liquidity is perceived to be decreasing, the Manager might seek to take any of the following actions to improve the liquidity profile of a fund: maintain higher cash balances; maintain a greater proportion of assets in securities which are traditionally more liquid; diversify the range of issue.

### Credit Risk

Credit risk comprises both credit issuer risk and counterparty risk. Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation. The Sub-Fund will be exposed to a credit risk for the parties with whom it trades. Under normal market conditions the Master Fund remains close to fully invested in equity securities. However, allocations to bonds may be made periodically for the purpose of capital preservation. Investing in sovereign debt, any other debt guaranteed by a sovereign government, or corporate debt entails risks related to the issuer's ability and willingness to repay the principal and pay interest. A default by the issuer of the bond may impact the value of the Master Fund.

## Internal Control and Risk Management Frameworks

Credit risk may also arise through a default by one or several large institutions that are dependent on one another to meet their liquidity or operational needs, so that a default by one institution causes a series of defaults by the other institutions. This is sometimes referred to as a "systemic risk" and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms and exchanges, with which the Master Scheme interacts on a daily basis.

In line with the fund documentation the Sub-Funds may use FX forwards in order to hedge or manage the FX risk of both the Assets and the share classes.

### Currency Risk

#### **Hedged unit class**

The Sub-Fund is made up of multiple classes of Units, some of which will be Hedged Unit Classes and some not hedged. Unitholders that do not invest in hedged units are not expected to be affected by the associated currency hedging strategies for that hedged unit class.

Hedging transactions are designed to reduce, within defined performance limits, the currency risk for Unitholders, however there is no guarantee that attempts to hedge currency risk will be successful and no hedging strategy can eliminate currency risk entirely. Should a hedging strategy be incomplete or unsuccessful, the value of the Sub-Fund's assets and income can remain vulnerable to fluctuations in currency exchange rate movements. Unitholders should be aware that there may be circumstances in which a hedging transaction may reduce currency gains that would otherwise arise in the valuation of the Sub-Fund. The gains/losses on and the costs of such hedging transactions accrue solely to the relevant hedged unit class.

Unitholders investing in any hedged unit class may be exposed to fluctuations in the net asset value per unit in relation to the relevant hedged unit class reflecting the gains/losses on and the costs of the hedging transactions and the relevant financial instruments. In the case of a net investment flow to or from a Hedged Unit Class, the hedging strategies may not be accurately adjusted and reflected in the net asset value of the said class until the following or a subsequent Business Day following the valuation day on which the instruction was accepted. Sub-Fund performance could vary from one class of Unit to another within the same Sub-Fund. Actual returns expressed in the Sub-Fund's base currency will vary over time in accordance with the fluctuations of the exchange rate between the Currency of Return and the Sub-Fund's base currency.

#### **Asset Hedging**

The investments of the Sub-Fund may be acquired in currencies which are different from its base currency and therefore the performance may be impacted by movements in exchange rate between the base currency and investment currency. The assets of the Sub-Fund not denominated in its base currency are hedged using Short Dated FX Forwards (OTC Derivatives) to manage currency risks. The risk arising from investing in non-base currency assets is substantially mitigated through the use of FX Forwards.

Hedging techniques employed by the Sub-Fund could involve a variety of derivative transactions. As a result, hedging techniques involve different risks than those of underlying investments, including liquidity risk and the potential for loss in excess of the amount invested. In particular, the variable degree of correlation between price movements of hedging instruments and price movements in the position (including asset positions) being hedged creates the possibility that losses on the hedge may be greater than gains in the value of the Sub-Fund's positions.

In addition, although the contemplated use of these techniques should minimise the risk of loss due to a decline in the value of the hedged position, at the same time they may limit any potential gains resulting from an increase in the value of such positions. There can be no assurance that hedging transactions will be successful in protecting against adverse market and/or currency movements.

In March 2020, the Manager took the decision to temporarily suspend the currency hedging program. As a result of this decision there is currently no currency hedging in place and the price of shares in the fund may therefore rise or fall due to movements in both exchange rates and the value of the underlying investment portfolio. Details of the decision can be found in Investor Notice "Covid-19 FX Hedging Policy" at [www.equitile.com](http://www.equitile.com).

### Counterparty Risk

Counterparty risk arises primarily with the financial brokers through whom the Fund buys and sells securities. The Sub-Fund may only transact with brokers from an approved broker list maintained by the Manager. All brokers on the Manager approved list are subject to regular credit and general business checks. The Sub-Fund may also be exposed to counterparty risks arising from the use of forward currency instruments, usually transacted to decrease exposure to foreign currency. These risks are monitored daily.

## Assessment of Value

FCA Assessment of Value, provisions are set out in COLL 6.6.19 to 6.6.27 and includes Rules as well as Guidance. The FCA require authorised fund managers (AFMs) to carry out an assessment on value for money of each fund as per the following criteria -

- Quality of service
- Performance
- AFM costs
- Economies of scale
- Comparable market rates
- Comparable services
- Classes of units

The detailed assessment of value document for the Fund is available at [www.equitile.com](http://www.equitile.com).

## Remuneration Disclosures

The provisions of the Undertaking in Collective Investments Schemes Directive (“UCITs V”) took effect on 18 March 2016. The legislation requires the Manager to establish and maintain remuneration policies for its staff which are consistent with and promote sound and effective risk management. The Board of Directors has established a remuneration policy to ensure the UCITs Remuneration Code in the UK FCA handbook is met proportionately for all UCITs Remuneration Code Staff. The policy sets out a framework for determining the level of fixed and variable remuneration of staff, including maintaining an appropriate balance between the two.

Arrangements for variable remuneration, where applicable, are calculated primarily by reference to the performance of each individual and the profitability of the relevant business unit. The policy is designed to reward long term performance and long term profitability.

All staff are employed by Equitile Investments Ltd with none employed directly by the Scheme. No performance fee was charged to the Fund for the year ending 31.12.2019 (2018: same)

Under the UCITs V Directive, the Manager is required to disclose information relating to the remuneration paid to its staff, split into fixed and variable remuneration. The total remuneration of those individuals who are fully or partly involved in the activities of the Scheme for the Scheme’s financial year ending 31 December 2019, is analysed in the table below:

	Number of Staff	Total Remuneration (£'000)
Fixed Remuneration	7	735
Variable Remuneration	1	10
Performance Fees	0	0
UCITS Code Staff, of which:	7	743
Senior Management	5	585
Other Code Staff	2	148

The staff members included in the above analysis support all the sub-funds managed by the Manager. It is not considered feasible or useful to attempt to apportion these figures to individual sub-funds and are based on assets under management. The Board has reviewed the general principles of the Remuneration Policy and its application in the last year which has resulted in no material changes to the Policy. The details of the Company’s Remuneration Policy can be found at [www.equitile.com](http://www.equitile.com).\*
