Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Equitile Resilience Fund

Accumulating GBP Share Class A1 (ISIN: GB00BDD1KT99)

A sub-fund of Equitile Investments ACS. The Fund is managed by Equitile Investments Ltd.

Objectives and Investment Policy

The Fund aims to generate capital growth by investing in today's most innovative, high growth companies. The investment process combines a quantitative and qualitative approach to build a diversified portfolio of between 35 to 40 high quality, large cap developed world companies. The investment process is designed to select the best stocks for the prevailing economic environment. It is explicitly engineered to adapt to changing economic circumstances, seeking to identify leading companies in rapidly growing industries.

The Fund is actively managed with Equitile utilising its expertise to select investments to achieve the Fund's objective. The Fund has no geographic or sector constraints and is benchmark agnostic. It is typically close to fully invested in equities and does not rely on leverage or derivatives to generate returns.

The investment portfolio is actively managed and the portfolio's currency exposure is hedged, to reduce the impact of exchange rate movements.

Risk and reward profile

Typically lower rewards			Typically higher rewards			
Lower risks				Higher risks		
1	2	3	4	5	6	7

- The Fund invests in an actively managed portfolio of Equities which may fall or rise in value. Accordingly, you may get back less than you invested. The risk and reward category is not guaranteed and may change over time.
- This scale gives an indication of how much a fund's performance has fluctuated in the past and therefore the potential risk of losing money. The lowest category does not mean risk free. The Fund does not offer any capital guarantee or protection.

Risks that are materially relevant to this Fund:

- The Fund is subject to the general investment risks of the value of underlying investments i.e., shares of companies whose value can go up or down due to, amongst other factors, changing business, economic and political conditions, taxation policies and monetary policies.
- The Fund uses forward transactions or derivatives, for the purposes of efficient portfolio management, specifically to hedge foreign exchange risk. This may expose the Fund to a credit risk with regards to counterparties, changes in exchange rates, imperfect tracking between the change in value of the derivative and the value of underlying assets and additional transaction costs.
- The Fund may not be treated as tax transparent in one or more relevant jurisdictions outside the UK. Changes to the tax status of the Fund in any such jurisdiction could lead to unexpected taxation of dividend income. The other risks are detailed in the Fund's Prospectus.

Recommendation: The Fund may not be suitable for investors who plan to withdraw their money within five years.

Charges for this Fund

	One-on charges taken before or after you invest					
	Entry Charge (Max)	None				
	This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.					
	Exit Charge (Max)	None				
	Charges taken from the Fur	arges taken from the Fund over the year				
	Ongoing Charges	0.84%				
	Charges taken from the Fund under certain specific conditions					
Performance Fee		Not Currently Charged*				

^{*}As the Fund's assets are currently below £350 million, the Fund is not currently incurring any performance fees.

The Equitile Fee Model:

Management fees of 0.7% per annum are charged on only the first £350 million of assets in the Master Fund. No management fee is charged on assets in excess of £350 million.

Performance fees of 10% of the returns generated are charged only on the returns attributable to assets in excess of £350 million. No performance fees are charged on assets below £350 million. Performance fees are calculated with respect to the high-water mark of the Master Fund's unit price.

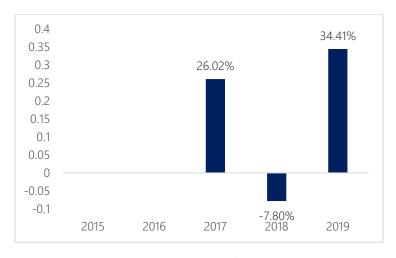

See Appendix 6 of the Prospectus for a detailed explanation of the Equitile fee model.

Past performance

- The Fund was launched on 29 February 2016.
- This share class was launched on 29 February 2016.
- The past performance is calculated in GBP.
- The performance figures include all ongoing charges.
 Past performance is not a guide to the future performance.
- The Fund is actively managed and aims to deliver capital growth by investing globally without being confined to any country or region in the equities of large cap resilient companies, meaning those assessed as being well-managed, conservatively financed and benefiting from strong corporate governance.
- The Fund's does NOT compare its performance in absolute terms against any benchmark. Any applicable performance fee is calculated against the fund's High Water Mark (please refer to Appendix 1 of the Master Fund' prospectus). An investor wishing to compare the sub-fund's absolute performance should select a global large cap equity benchmark or Index with the equivalent FX hedging over a 5 year rolling period.
